| 264  | Crosman Model 781 BB/Pellet Gun<br>No Pal required. The 781 is a single-stroke pneumatic gun. Put just one pump of air into it, and it's ready to shoot! It's a really flexible airgun, because you can shoot either BBs (440 fps) or pellets (405 fps).<br>The black synthetic stock has a checkered grip, and there's a fiber optic front sight and an elevation-adjustable rear sight. Pellets are loaded into a 5-shot clip, and BBs are loaded into a 195-shot reservoir that feeds a 21-shot magazine.<br>This is a repeater, but it is not a semi-auto gun! As with any gun that shoots multiple shots from a clip or reservoir, you have to cock it for each shot. For this gun, which is a single-stroke pneumatic, you have to work the pump handle one time to cock the gun before EACH shot.   | 1   | 0.00          | 37.50            |
